

# CKEditor in Drupal

## From Better Formatting to AI-Powered Authoring

# What if content editors could spend less time on tedious tasks and more time creating meaningful, high-quality content?

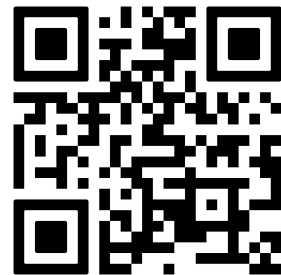

**Ondřej Chrastina**

Developer Advocate

[ondrej.chrastina.dev](https://ondrej.chrastina.dev)

**..or just stop by the CKEditor booth!**

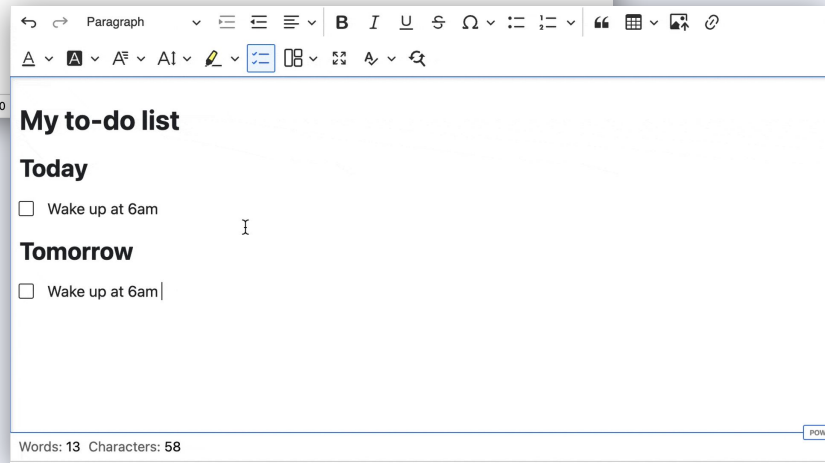

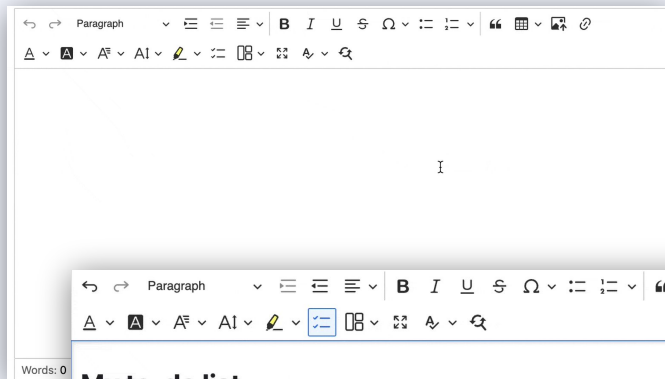

# The CKEditor Plugin Pack

- Free, official module developed by CKEditor
- Extends CKEditor's functionality for Drupal
- Not just a set of plugins
  - toolkit designed to make content editing faster, more efficient, and accessible.

```
composer require drupal/ckeditor5_plugin_pack
```

# The CKEditor Plugin Pack Ecosystem

## ★ Essentials

- Auto Image
- Block Indentation
- Page Break & Select All
- Fullscreen Mode (=> Core)
- Word Count Tool
- Text Transformation

## ☰✎ Advanced Editing

- Restricted Editing (New!)
- Find and Replace
- Layout Tables (New!)
- Fonts & Highlight
- Paste Markdown
- Bookmarks & Emoji
- Media Embed (New!)
- HTML Media Embed (New!)

## ✓ Quality & Compliance

- Link Attributes (SEO/A11y)
- To-do List
- WProofreader Grammar
- Spell Checker Integration
- Empty Block Handling (New!)

## ✎ Improvements

- Link Attributes interoperability
- Gin Dark Theme Support

...progress since DrupalCon Atlanta 2025

## Extend the advanced editing capabilities

- **Design & Template Control** - Empty Block, Layout Tables & Restricted Editing

Granular control over the document's structure, design definition, and the user's ability to modify specific areas.

- **Embeds** - (Media & HTML)

Tools for integrating external or custom content directly into the document.

- **Fullscreen mode**

A workspace expansion tool provided by a CKEditor plugin pack is now moving into Drupal Core.

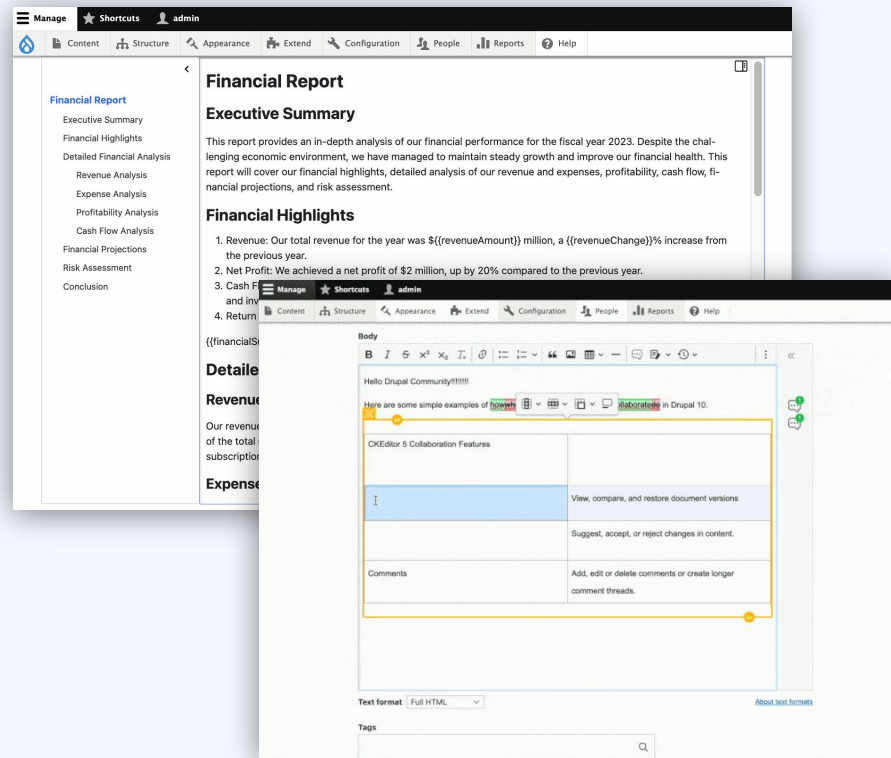

And we're not stopping here — our roadmap for **2026** includes even more **tools** to help you streamline your workflows and create better content.

# The CKEditor Premium Features

- Enterprise-grade tools built for teams, publishers, and high-performance content workflows
- CKEditor 5 Premium plugins into your Drupal editor configuration

```
composer require drupal/ckeditor5_premium_features
```

# The CKEditor Premium Features Ecosystem

- Line height **(New!)**
- Footnotes **(New!)**

## Collaboration

- Track changes
- Comments
- Revision History
- Real-time Collab
- Notifications

## Conversion

- Export to PDF/Word
- Import from Word
- Inline Style Export

## Productivity

- Slash Commands
- Format Painter
- Paste from Office
- Case Change

## Page Management

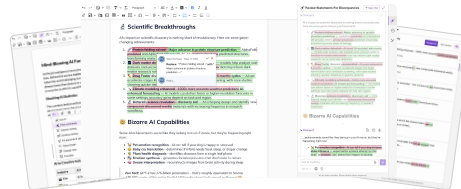

- Document Outline
- Table of Contents

## Configs & Compliance

- Email Config Helper **(New!)**
- Merge Fields **(New!)**
- Enterprise Compliance Ready

## CKEditor AI (New!)

- AI Chat
- AI Quick Actions
- AI Review
- AI Translate

...progress since DrupalCon Atlanta 2025

# Simplify Content Workflow

- Footnotes

Add supplementary information, explanatory notes, or citations at the bottom of the document, thus avoiding clutter in the main text.

- Merge Fields

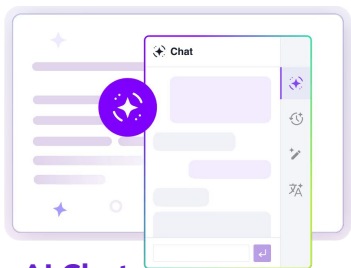

Incorporate placeholders in templates for personalized, context-specific content creation and hook the values to Drupal Token system.

- Email Configuration Helper

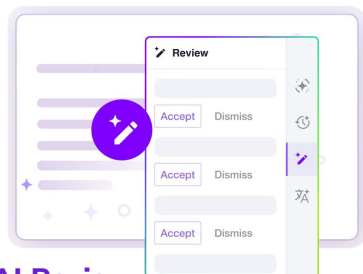

Spot the email templates issues as you write them, not once they land to your recipients inbox.

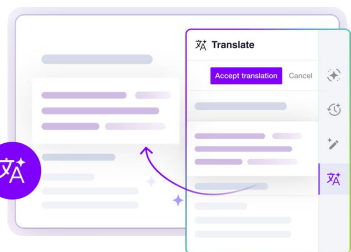

## AI Chat

- Collaborative ideation
- Controlled output
- Smart prompting
- Chat history

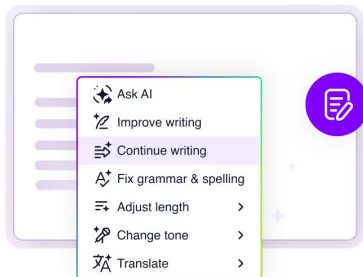

## AI Review

- Visual review
- Standardized compliance
- Custom checks
- Optimized for large documents

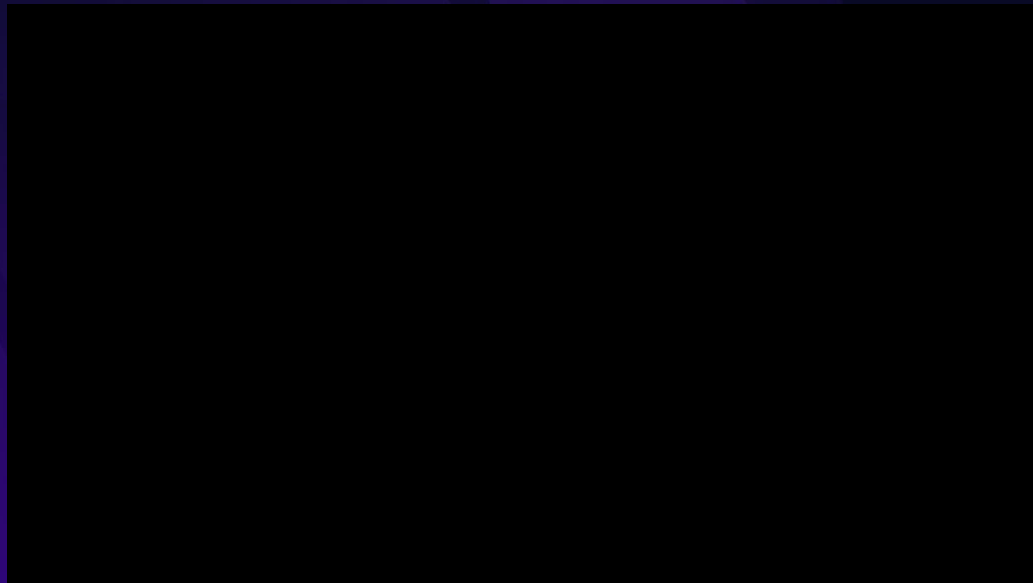

## AI Translate

- Out-of-the-box languages
- Add additional languages
- A dedicated UI

## AI Quick Actions

- Speed and convenience
- Preview before applying
- Configurable actions
- Custom actions

# CKEditor AI

Released last week for Drupal!

# Built for Drupal, Powered by the Community

- The CKEditor 5 Plugin Pack provides **tools that simplify workflows, enhance formatting, improve accessibility, and deliver premium features for free.**
- These plugins aren't just functional—they're **solutions to real-world challenges faced by Drupal content creators.**
- Plugin Pack is **ready to offer paid features if your client decides** with no migration.
- The Plugin Pack is an **ongoing project**, and we're committed to expanding it further in 2026.
- And as always, we **rely on feedback from editors, developers, and site builders** like you to ensure the Plugin Pack continues to meet your needs.
